BRC ACCIDENT / INCIDENT / FALL REPORT FORM

Rider name: _____

Falls at fences (only complete if fall was at a fence)

	YES	NO		YES	NO
Did horse refuse?			Did horse break the fence?		
Did horse hit fence on the way up?			Did horse tip portable fence over?		
Did horse hit fence on the way down?			Did horse have a <u>rotational fall</u> *?		
Did the rider hit the fence?			Did horse have a <u>torsional fall</u> **?		

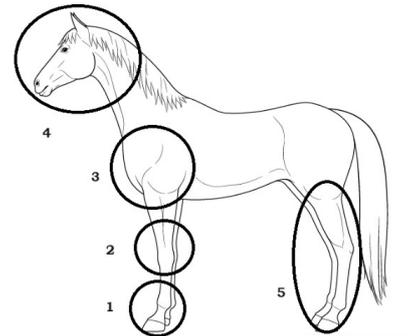

*Rotational fall: horse is considered to have had a rotational fall when it somersaults as a result of hitting a fence. To clarify this further, the horse's hindquarters end up significantly higher than its front end and it will land on the landing side of the fence.

**Torsional fall: horse is considered to have had a torsional fall when he twists and lands on his shoulder or side.

To be completed if accident involved a collision between a Horse and a fence.

Please circle the number indicating the initial point of impact between the Horse and the fence.

1 - 2 - 3 - 4 or 5
